

BRIDGING THE GAP – 6TH FORM PREPARATION PACK – ART

Welcome to art! It is hoped that during your time with us you will become confident, prolific and high achieving artists in your own right; spending time developing your skills, strengths, interests and understanding, and utilising what you have learnt.

During the holidays we would like you to create a **visual diary** which evidences at least one gallery visit, exploring the work of at least **two** artists (it may be more artists and visits), however the emphasis is on the quality of recording and research. The visual diary must contain lots of interesting drawing using biro, fine liner, marker pen, ink etc.. a written review of the work using subject specific vocabulary, which is a combination of the information you have found out and your own personal response to the work and you also need to include photographs of the work. The form of the 'visual diary' is up to you. You may want to consider the form to be digital, (a film or animation) a performance a more creative visual presentation etc. or in a sketchbook. Take risks and be creative!!

Skills –

- To extend technical/recording skills
- To promote ideas and encourage a personal response
- To build confidence
- To extend students ability to research artists.
- To promote reflection.

Please hand in to Mrs Kelleher on the first day back after summer and have fun!
