

BRIDGING THE GAP – 6TH FORM PREPARATION PACK – PHOTOGRAPHY

Welcome to Photography! It is hoped that during your time with us you will become confident, prolific and high achieving photographers in your own right; spending time developing your skills, strengths, interests and understanding, and utilising what you have learnt.

During the holidays we would like you to create a '**visual diary**' which evidences at least one gallery visit, exploring the work of at least two photographers/ artists (it may be more practitioners and visits), however the emphasis is on the quality of recording and research. The visual diary must contain lots of interesting photographs, Photoshop's, collages etc. and drawings (not compulsory) using biro, fine liner, marker pen, ink etc.. A written review of the work viewed using subject specific vocabulary, which is a combination of the information you have found out and your own personal response to the work. The form of the 'visual diary' is up to you. You may want to consider the form to be digital, photographic, a film or animation, a photomontage or other creative visual presentation etc. Take risks and be creative!!

Skills –

- To extend technical/recording skills
- To promote ideas and encourage a personal response
- To build confidence
- To extend your ability to research photographers \artists.
- To promote reflection.

Please hand back to Mrs Kelleher on the first day back after summer. Have fun!
